

COMPLETE PRICE LIST FOR GENEKAM PRODUCTS 2014

Version 3.2.6

Ready to use PCR Kits (conventional PCR; gel agarose based)

BACTERIA & PARASITES

Cat. No.	NAME OF PRODUCT	REACTIONS	PRICE*	KIND
K067	Acholeplasma laidlawi	100	299,- Euro	conventional PCR
K159	Aeromonas salmonicida	100	299,- Euro	conventional PCR
K216	Bacillus anthracis (common)	100	299,- Euro	conventional PCR
K221	Bacillus anthracis (toxic and non-toxic)	100	499,- Euro	conventional PCR
K222	Bacillus anthracis (multiple genes)	100	699,- Euro	conventional PCR
K208	Bacteroides forsythus	100	299,- Euro	conventional PCR
K227	Bordetella pertussis	100	399,- Euro	conventional PCR
K018	Borrelia burgdorferi	100	399,- Euro	conventional PCR
K197	Borrelia burgdorferi genotyping	100	599,- Euro	conventional PCR
K740	Borrelia burgdorferi CE	100	499,- Euro	conventional PCR
K063	Brucella abortus CE	100	399,- Euro	conventional PCR
K772A	Brucella genus	100	299,- Euro	conventional PCR
K772B	Brucella genus (incl. 2 genesequencings)	100	399,- Euro	conventional PCR
K226	Detecting of Biofilm producing bacteria	100	299,- Euro	conventional PCR
K768	Campylobacter fetus	100	399,- Euro	conventional PCR
K756A	Campylobacter genus	100	299,- Euro	conventional PCR
K756B	Campylobacter genus (incl. 2 genesequencings)	100	399,- Euro	conventional PCR
K016	Campylobacter jejuni	100	299,- Euro	conventional PCR
K015	Chlamydia pneumoniae	100	399,- Euro	conventional PCR
K013	Chlamydia psittaci	100	399,- Euro	conventional PCR
K014	Chlamydia trachomatis	100	399,- Euro	conventional PCR
K170	Clostridium genus (incl. 2 genesequencings)	100	399,- Euro	conventional PCR
K250	Clostridium perfringens α (alpha) Toxin	100	299,- Euro	conventional PCR
K251	Clostridium perfringens β (beta) Toxin	100	299,- Euro	conventional PCR
K252	Clostridium perfringens ϵ (epsilon) Toxin	100	299,- Euro	conventional PCR
K253	Clostridium perfringens ι (iota) Toxin	100	299,- Euro	conventional PCR
K254	Clostridium perfringens Enterotoxin	100	299,- Euro	conventional PCR
K255	Clostridium perfringens β -2 (beta 2) Toxin	100	299,- Euro	conventional PCR
K256	Clostridium perfringens genotyping based on six toxins (multiplex PCR)	100	799,- Euro	conventional PCR
K257	Clostridium difficile (single check) without positive control	100	199,- Euro	conventional PCR
K258	Clostridium difficile (double check) without positive control	100	399,- Euro	conventional PCR
K259	Toxogenic clostridium difficile (Toxin A) without positive control	100	299,- Euro	conventional PCR
K260	Clostridium difficile (triple check) without positive control	100	699,- Euro	conventional PCR
K047	Coxiella burnetii	100	399,- Euro	conventional PCR
K726	Cryptosporidium Parvum	100	399,- Euro	conventional PCR
K065	Echinococcus granulosus	100	399,- Euro	conventional PCR
K792	Escherichia coli double check	100	299,- Euro	conventional PCR
K205	Flavobacterium psychrophilum	100	299,- Euro	conventional PCR
K725	Giardia lamblia	100	399,- Euro	conventional PCR
K046	Helicobacter pylori	100	299,- Euro	conventional PCR
K714	Legionella genus	100	299,- Euro	conventional PCR
K076	Legionella pneumoniae	100	299,- Euro	conventional PCR
K021	Leishmania donovani	100	399,- Euro	conventional PCR
K017	Leptospira	100	399,- Euro	conventional PCR
K017A	Leptospira pathogenic CE	100	399,- Euro	conventional PCR
K337	Leptospira interrogans	100	299,- Euro	conventional PCR
K338	Leptospira interrogans & Leptospira kirschneri	100	399,- Euro	conventional PCR
K069	Listeria monocytogenes	100	299,- Euro	conventional PCR
K136	Listeria monocytogenes Serotyping (<i>under development</i>)	100	ask	conventional PCR
K760	Mycobacterium avium (subsp. avium)	100	499,- Euro	conventional PCR
K032	Mycobacterium avium sp. paratuberculosis DOUBLE CHECK	100	599,- Euro	conventional PCR
K731	Mycobacterium avium (subsp. paratuberculosis) SINGLE CHECK (IS900)	100	399,- Euro	conventional PCR
K346	Mycobacterium avium sp. paratuberculosis (genotyping 1, II and III)	100	699,- Euro	conventional PCR
K033	Mycobacterium bovis	100	399,- Euro	conventional PCR
K341	Identification of Mycobacterium bovis BCG	100	399,- Euro	conventional PCR
K343	Differentiate between Mycobacterium bovis BCG and Mycobacterium (strict sense /non BCG)	100	499,- Euro	conventional PCR
K038	Mycobacterium complex (to differentiate between TB and non-TB)	100	499,- Euro	conventional PCR
K155	Mycobacterium genavense (incl. 1 genesequencing)	100	399,- Euro	conventional PCR
K718	Mycobacterium genus	100	499,- Euro	conventional PCR
K353	Mycobacterium intracellulare	100	399,- Euro	conventional PCR
K716	Mycobacterium leprae (DOUBLE CHECK) (without positive control)	100	599,- Euro	conventional PCR
K717	Mycobacterium leprae (one step) (without positive control)	100	499,- Euro	conventional PCR
K071	Mycobacterium tuberculosis	100	499,- Euro	conventional PCR
K342	Identifications of members of Mycobacterium tuberculosis complex (genotyping)	20	599,- Euro	conventional PCR
K352	Mycobacterium tuberculosis genotype beijing	100	399,- Euro	conventional PCR
K228A	Mycobacterium ulcerans (Buruli) - single check	100	399,- Euro	conventional PCR
K228B	Mycobacterium ulcerans (Buruli) - double check	100	499,- Euro	conventional PCR
K008	Mycoplasma agalactiae	100	299,- Euro	conventional PCR
K118	Mycoplasma alkalescens	100	299,- Euro	conventional PCR
K048	Mycoplasma bovigenitalium	100	299,- Euro	conventional PCR
K119	Mycoplasma bovirhinis	100	299,- Euro	conventional PCR
K002	Mycoplasma bovis	100	299,- Euro	conventional PCR
K156	Mycoplasma conjunctivae	100	299,- Euro	conventional PCR

Cat. No.	NAME OF PRODUCT	REACTIONS	PRICE*	KIND
K041	Mycoplasma felis	100	399,- Euro	conventional PCR
K006	Mycoplasma gallisepticum	100	199,- Euro	conventional PCR
K012	Mycoplasma genitalium CE	100	299,- Euro	conventional PCR
K001	Mycoplasma genus in cell culture	100	399,- Euro	conventional PCR
K040	Mycoplasma hominis	100	299,- Euro	conventional PCR
K010	Mycoplasma hyopneumoniae	100	299,- Euro	conventional PCR
K009	Mycoplasma hyorhinis	100	299,- Euro	conventional PCR
K004	Mycoplasma iowae	100	199,- Euro	conventional PCR
K005	Mycoplasma meleagridis	100	199,- Euro	conventional PCR
K003	Mycoplasma mycoidis	100	299,- Euro	conventional PCR
K766	Mycoplasma mycoides cluster	100	299,- Euro	conventional PCR
K767	Mycoplasma mycoides & agalactiae multi	100	399,- Euro	conventional PCR
K011	Mycoplasma pneumoniae CE	100	299,- Euro	conventional PCR
K007	Mycoplasma synoviae	100	199,- Euro	conventional PCR
K406	Neisseria gonorrhoeae	100	199,- Euro	conventional PCR
K116	Neospira caninum	100	399,- Euro	conventional PCR
K751	Pasteurella multocida	100	299,- Euro	conventional PCR
K752	Pasteurella multocida (Toxigenic)	100	299,- Euro	conventional PCR
K081	Renibacterium salmoninarum	100	299,- Euro	conventional PCR
K713	Rickettsia rickettsii	100	299,- Euro	conventional PCR
K732A	Salmonella sp. 100	100	299,- Euro	conventional PCR
K732B	Salmonella sp. 1000 reactions	1000	2500,- Euro	conventional PCR
K154	Salmonella enteritidis	100	299,- Euro	conventional PCR
K157	Salmonella typhimurium	100	299,- Euro	conventional PCR
K741	Shigella (Shigellas dysenteriae)	100	199,- Euro	conventional PCR
K791	Staphylococcus aureus	100	199,- Euro	conventional PCR
K790	Staphylococcus genus	100	299,- Euro	conventional PCR
K176	Streptococcus genus	100	299,- Euro	conventional PCR
K178	Streptococcus agalactiae (Group B Streptococcus)	100	199,- Euro	conventional PCR
K070	Taylorella equigenitalis	100	399,- Euro	conventional PCR
K023	Toxoplasma gondii	100	399,- Euro	conventional PCR
K098	Treponema pallidum	100	399,- Euro	conventional PCR
K068	Ureaplasma urealyticum ready to use PCR kit CE	100	399,- Euro	conventional PCR
K708	Yersinia enterocolitica	100	199,- Euro	conventional PCR
K206	Yersinia ruckeri	100	299,- Euro	conventional PCR
K243	Enterobacter sakazakii without positive control	100	299,- Euro	conventional PCR
K245	E. coli strain of recent outbreak (O104:H4)	100	399,- Euro	conventional PCR
K246	Unknown bacteria in samples (including 3 genesequencing)	100	399,- Euro	conventional PCR
K247	Multilocus sequence typing of Borrelia burgdorferi	20	599,- Euro	conventional PCR
K248	Genotyping of neisseria meningitidis	100	899,- Euro	conventional PCR
K291	Bartonella genus	100	299,- Euro	conventional PCR

FUNGI

Cat. No.	NAME OF PRODUCT	REACTIONS	PRICE*	KIND
K072	Aspergillus fumigatus (incl. 2 genesequencings)	100	299,- Euro	conventional PCR
K043	Candida albicans	100	299,- Euro	conventional PCR
K108	Candida albicans + Aspergillus fumigatus	100	399,- Euro	conventional PCR
K106	Candida albicans + Aspergillus fumigatus + Fusarium	100	499,- Euro	conventional PCR
K107	Fusarium	100	299,- Euro	conventional PCR
K727	Pneumocystis carinii	100	599,- Euro	conventional PCR
K268	Multiplex PCR for detection of different Candida strains: C. albicans, C. glabrata, C. tropicalis, C. dubliniensis	100	599,- Euro	conventional PCR
K269	Candida tropicalis	100	399,- Euro	conventional PCR
K270	Candida glabrata	100	399,- Euro	conventional PCR
K271	Candida dubliniensis	100	399,- Euro	conventional PCR

DNA - VIRUSES

Cat. No.	NAME OF PRODUCT	REACTIONS	PRICE*	KIND
K115	Avian Infectious Laryngotracheitis (ILT)	100	399,- Euro	conventional PCR
K074	Avian Polyoma virus (APV) for parrots & birds	100	399,- Euro	conventional PCR
K124	Avian Polyoma Virus and feather disease: MULTIPLEX SINGLE PCR	100	599,- Euro	conventional PCR
K114	Bovine Herpes Virus (BHV-1)	100	399,- Euro	conventional PCR
K169	Canine Adeno Virus 1 (CAV-1)	100	399,- Euro	conventional PCR
K150	Canine Adeno Virus 2 (CAV-2)	100	399,- Euro	conventional PCR
K093	Canine Herpes Virus	100	399,- Euro	conventional PCR
K151	Canine Parvovirus (CPV)	100	399,- Euro	conventional PCR
K132	Chicken Anaemia Virus	100	399,- Euro	conventional PCR
K103	Cytomegalo virus (CMV)	100	499,- Euro	conventional PCR
K066	Duck Virus Enteritis (DVE)	100	399,- Euro	conventional PCR
K742	Epstein-Barr Virus	100	299,- Euro	conventional PCR
K092	Equine Herpes Virus 1+4 (Multiplex Single PCR)	100	499,- Euro	conventional PCR
K096	Feline Herpes Virus (FHV)	100	299,- Euro	conventional PCR
K172	Feline Leukemia Virus (FeLV)	100	399,- Euro	conventional PCR
K173	Feline Panleukopenia Virus	100	399,- Euro	conventional PCR
K120	Fowl Pox (Poultry)	100	399,- Euro	conventional PCR
K094	HBV with Genotyping A, B, C, D, E, F, G	100	699,- Euro	conventional PCR
K095	HBV without Genotyping	100	499,- Euro	conventional PCR
K091	Herpes simplex Virus 1+2 (Multiplex Single PCR)	100	499,- Euro	conventional PCR
K706	Human Adeno Virus	100	399,- Euro	conventional PCR
K091B	Human Herpes virus (1-5)	100	499,- Euro	conventional PCR
K754	Human Herpes virus (1-8), 100	100	699,- Euro	conventional PCR
K302	Human Papilloma Virus Genotyping	100	999,- Euro	conventional PCR
K795	Human Papilloma Virus (HPV Common / double check)	100	499,- Euro	conventional PCR
K796	Human Papilloma Virus (HPV-2)	100	399,- Euro	conventional PCR
K797	Human Papilloma Virus (HPV-4)	100	399,- Euro	conventional PCR
K175	Human Papilloma Virus (HPV-6) low risk profile	100	399,- Euro	conventional PCR
K204	Human Papilloma Virus (HPV-6/11) low risk profile	100	499,- Euro	conventional PCR
K798	Human Papilloma Virus (HPV-7)	100	399,- Euro	conventional PCR
K202	Human Papilloma Virus (HPV-11) low risk profile	100	399,- Euro	conventional PCR

Cat. No.	NAME OF PRODUCT	REACTIONS	PRICE*	KIND
K799	Human Papilloma Virus (HPV-16) (High risk profile)	100	399,- Euro	conventional PCR
K707	Human Papilloma Virus (HPV-16 / 18) (High risk profile)	100	499,- Euro	conventional PCR
K800	Human Papilloma Virus (HPV-18)	100	399,- Euro	conventional PCR
K801	Human Papilloma Virus (HPV-31) (High risk profile)	100	399,- Euro	conventional PCR
K802	Human Papilloma Virus (HPV-33) (High risk profile)	100	399,- Euro	conventional PCR
K152	Human Papilloma Virus (HPV-35) (High risk profile)	100	399,- Euro	conventional PCR
K160	Human Papilloma Virus HPV-39 (High risk profile)	100	399,- Euro	conventional PCR
K153	Human Papilloma Virus HPV-42 (Low risk profile)	100	399,- Euro	conventional PCR
K209	Human Papilloma Virus HPV-43 (Low risk profile)	100	399,- Euro	conventional PCR
K207	Human Papilloma Virus HPV-44 (Low risk profile)	100	399,- Euro	conventional PCR
K161	Human Papilloma Virus HPV-45 (High risk profile)	100	399,- Euro	conventional PCR
K162	Human Papilloma Virus HPV-51 (High risk profile)	100	399,- Euro	conventional PCR
K163	Human Papilloma Virus HPV-56 (High risk profile)	100	399,- Euro	conventional PCR
K164	Human Papilloma Virus HPV-58 (High risk profile)	100	399,- Euro	conventional PCR
K165	Human Papilloma Virus HPV-59 (High risk profile)	100	399,- Euro	conventional PCR
K166	Human Papilloma Virus HPV-66 (High risk profile)	100	399,- Euro	conventional PCR
K167	Human Papilloma Virus HPV-68 (High risk profile)	100	399,- Euro	conventional PCR
K749	Human Polyoma Virus	100	499,- Euro	conventional PCR
K123	Koi Herpes Virus (KHV)	100	299,- Euro	conventional PCR
K345	Lumpy-skin disease virus	100	399,- Euro	conventional PCR
K125	Marek's disease (MDV)	100	399,- Euro	conventional PCR
K168	Pigeon Circovirus	100	399,- Euro	conventional PCR
K711	Porcine Circovirus 2	100	399,- Euro	conventional PCR
K134	Porcine Parvovirus	100	399,- Euro	conventional PCR
K073	Pistitane Beak and Feather disease virus (Pbfd for parrots & birds)	100	399,- Euro	conventional PCR
K135	Pachecovirus (Pacheco's Disease)	100	ask	conventional PCR
K104	Varicella-Zoster-Virus	100	399,- Euro	conventional PCR
K244	White Spot Virus without positiv control	100	299,- Euro	conventional PCR
K263	Bovine Papilloma virus (Common) double check (it can detect different strains of the BPV viruses in the sample)	100	499,- Euro	conventional PCR
K264	Bovine Papilloma virus (1 and 2) double check (It can be used on bovine and equine samples)	100	499,- Euro	conventional PCR
K265	Ovine Herpes Virus-2	100	399,- Euro	conventional PCR
K266	Herpes Virus (Common) (It can detect different kinds of herpes viruses of animal as well as human origin, it can be used to detect unknown strains of herpes viruses)	100	499,- Euro	conventional PCR

BLOOD PARASITES

Cat. No.	NAME OF PRODUCT	REACTIONS	PRICE*	KIND
K097	Anaplasma phagocytophilum	100	399,- Euro	conventional PCR
K715	Babesia bigemina	100	299,- Euro	conventional PCR
K078	Babesia bovis	100	399,- Euro	conventional PCR
K719	Babesia caballi	100	399,- Euro	conventional PCR
K720	Babesia equi	100	399,- Euro	conventional PCR
K793	Babesia genus	100	399,- Euro	conventional PCR
K022	Babesia gibsoni	100	399,- Euro	conventional PCR
K201	Plasmodium falciparum CE	100	499,- Euro	conventional PCR
K405	Plasmodium multiplex+ Plasmodium vivax & Plasmodium falciparum	100	699,- Euro	conventional PCR
K404	Plasmodium vivax CE	100	499,- Euro	conventional PCR
K750	Theileria annulata (without positive control)	100	499,- Euro	conventional PCR
K753	Theileria genus (without positive control)	100	399,- Euro	conventional PCR
K261	Trypanosoma evansi without positive control	100	299,- Euro	conventional PCR
K262	Trypanosoma without positive control	100	299,- Euro	conventional PCR

SPECIES - SPECIFIC TESTS

Cat. No.	NAME OF PRODUCT	REACTIONS	PRICE*	KIND
K019	Identification of Prothrombin and Factor V Multiplex CE	100	399,- Euro	conventional PCR
K020	DNA Birdsexing	100	299,- Euro	conventional PCR
K082	DNA Birdsexing (crane)	100	399,- Euro	conventional PCR
K083	DNA Birdsexing (falcon)	100	ask	conventional PCR
K171	Ostrich Sexing	100	299,- Euro	conventional PCR
K024	Identification of species-specific DNA (bovine)	100	299,- Euro	conventional PCR
K027	Identification of species-specific DNA (buffalo)	100	299,- Euro	conventional PCR
K035	Identification of species-specific DNA (buffalo&cow)	100	499,- Euro	conventional PCR
K705	Identification of species-specific DNA (camels)	100	299,- Euro	conventional PCR
K704	Identification of canine-specific DNA (dogs)	100	399,- Euro	conventional PCR
K703	Identification of species-specific DNA (cats) (including 1 genesequencing)	100	399,- Euro	conventional PCR
K028	Identification of species-specific DNA (chicken)	100	299,- Euro	conventional PCR
K030	Identification of species-specific DNA (fish)	100	299,- Euro	conventional PCR
K025	Human specific DNA CE	100	299,- Euro	conventional PCR
K603	Identification of species-specific DNA (horses) (including 1 genesequencing)	100	399,- Euro	conventional PCR
K026	Identification of species-specific DNA (ovine)	100	299,- Euro	conventional PCR
K029	Identification of species-specific DNA (porcine)	100	299,- Euro	conventional PCR
K079	Identification of turkey specific DNA	100	299,- Euro	conventional PCR
K770	Identification of maize DNA	100	399,- Euro	conventional PCR
K771	Identification of soybean DNA	100	399,- Euro	conventional PCR
K198	DNA Birdsexing verification test	100	299,- Euro	conventional PCR
K362	Genekam Barcode(avian):Ready to use PCR kit for barcoding birds + 10 free genesequencings	100	399,- Euro	conventional PCR
K363	Genekam Barcode(avian):Ready to use PCR kit for barcoding birds containing genesequencing solutions	100	399,- Euro	conventional PCR
K364	Genekam barcode (mammals):Ready to use PCR Kit for barcoding mammals + 10 free genesequencings	100	399,- Euro	conventional PCR
K365	Genekam barcode (mammals): Ready to use PCR kit for barcoding mammals containing genesequencing solutions	100	399,- Euro	conventional PCR
K366	Genekam barcode (fish):Ready to use PCR Kit for barcoding fish + 10 free genesequencings	100	399,- Euro	conventional PCR
K367	Genekam barcode (fish):Ready to use PCR Kit for barcoding fish containing genesequencing solutions	100	399,- Euro	conventional PCR
K299	Bovine sexing	100	299,- Euro	conventional PCR

TUMOR - MARKERS

Cat. No.	NAME OF PRODUCT	REACTIONS	PRICE*	KIND
K775	HER2	100	499,- Euro	conventional PCR
K051	Human Carcino embryonic (CEA)	100	499,- Euro	conventional PCR
K050	Human Cytokeratin 19 (K19)	100	499,- Euro	conventional PCR
K763	Human Cytokeratin 20 (K20)	100	599,- Euro	conventional PCR
K761A	human β -Actin (internal control)	100	499,- Euro	conventional PCR

Cat. No.	NAME OF PRODUCT	REACTIONS	PRICE*	KIND
K761B	human β -Actin (internal control): to be bought with any other tumor-marker kit.	100	299,- Euro	conventional PCR
K776	Mammaglobin	100	499,- Euro	conventional PCR
K056	Mammaglobin 1 (human)	100	499,- Euro	conventional PCR
K058	Mammaglobin 1&2 (human)	100	599,- Euro	conventional PCR
K057	Mammaglobin 2 (human)	100	499,- Euro	conventional PCR
K052	MART-1/MELAN-A (human)	100	499,- Euro	conventional PCR
K054	MASPIN (human)	100	499,- Euro	conventional PCR
K053	MUC-1 (human)	100	499,- Euro	conventional PCR
K055	P53 (human) under development	100	ask	conventional PCR
K774	Parathyroid hormone	100	599,- Euro	conventional PCR

HOUSE KEEPING GENES, CYTOKINES AND OTHER MARKERS (HUMAN)

Cat. No.	NAME OF PRODUCT	REACTIONS	PRICE*	KIND
K761A	human β -Actin (internal control)	100	499,- Euro	conventional PCR
K084	IL-1 Human	100	499,- Euro	conventional PCR
K085	IL-2 Human	100	499,- Euro	conventional PCR
K086	IL-3 Human	100	499,- Euro	conventional PCR
K087	IL-4 Human	100	499,- Euro	conventional PCR
K088	IL-5 Human	100	499,- Euro	conventional PCR
K089	IL-6 Human	100	499,- Euro	conventional PCR
K158	Human Interleukin IL-8	100	599,- Euro	conventional PCR
K090	IFN Human	100	499,- Euro	conventional PCR
K099	TNF Human	100	499,- Euro	conventional PCR
K126	Ready to use PCR kit for 3 cytokine targets like IFN, IL-2 and TNF	100	899,- Euro	conventional PCR

GMO

Cat. No.	NAME OF PRODUCT	REACTIONS	PRICE*	KIND
K304	Ready to use PCR kit (GM Soybean: detecting EPSPS)	100	199,- Euro	conventional PCR
K305	Ready to use PCR kit (GM Soybean: detecting P35S)	100	199,- Euro	conventional PCR
K306	Ready to use PCR kit (GM Soybean: detecting NOS)	100	199,- Euro	conventional PCR
K771	Soybean specific (internal control) DNA	100	199,- Euro	conventional PCR
K308	Ready to use PCR kit (GM Maize: detecting bt176)	100	199,- Euro	conventional PCR
K309	Ready to use PCR kit (GM Maize: detecting bt11)	100	199,- Euro	conventional PCR
K310	Ready to use PCR kit (GM Maize: detecting Mon 810)	100	199,- Euro	conventional PCR
K311	Ready to use PCR kit (GM Maize: detecting T14/T25)	100	199,- Euro	conventional PCR

RNA - VIRUSES

Cat. No.	NAME OF PRODUCT	REACTIONS	PRICE*	KIND
K333A	Fluhunter: Avian Influenza H5 (one step)	100	499,- Euro	conventional PCR
K332A	Fluhunter: Avian Influenza H7 (one step)	100	499,- Euro	conventional PCR
K331A	Fluhunter: Avian Influenza virus (H9) (one step)	100	499,- Euro	conventional PCR
K177A	Fluhunter: Avian Influenza virus H5, H7	100	699,-Euro	conventional PCR
K127A	Fluhunter: Avian Influenza virus H5, N1, H7 and H9	100	999,-Euro	conventional PCR
K127B	Fluhunter: Avian Influenza virus H5, H7, H9 (incl. 15 genesequencings)	100	1599,-Euro	conventional PCR
K122D	Influenza virus (H3N2)	100	599,- Euro	conventional PCR
K413	Influenza virus (N1)	100	599,- Euro	conventional PCR
K769	Avian Influenza virus (H9) (incl. 2 genesequencings)	100	999,- Euro	conventional PCR
K122A	Avian Influenza virus (H9, H5, N1)	100	899,- Euro	conventional PCR
K122B	Avian Influenza virus (H9, H5, N1) (incl. 2 sequencings)	100	999,- Euro	conventional PCR
K122C	Avian Influenza virus (H9, H5, N1) (incl. 15 genesequencings)	100	1499,- Euro	conventional PCR
K123B	Ready to use avian influenza virus (H5N1): human only (incl. 2 free sequencings) DUPLEX PCR DOUBLE CHECK	100	999,- Euro	conventional PCR
K199	Avian Reo Virus	100	499,- Euro	conventional PCR
K111	Bluetongue Virus (BTV)	100	699,- Euro	conventional PCR
K174	Bovine Leukemia Virus (pro DNA)	100	499,- Euro	conventional PCR
K131	Bovine Parainfluenza Virus Type 3 (BPiV3)	100	599,- Euro	conventional PCR
K064	Bovine respiratory syncytial virus	100	699,- Euro	conventional PCR
K059	Bovine viral diarrhoea virus (BVDV)	100	499,- Euro	conventional PCR
K764	Bovine viral diarrhoea virus 1 and 2 (Genotyping)	100	699,- Euro	conventional PCR
K031	Canine distemper Virus	100	499,- Euro	conventional PCR
K224	Chikungunya Virus	100	599,- Euro	conventional PCR
K735A	Classical swine fever virus (CSFV) DOUBLE CHECK Pestivirus (CSFV, BVDV, BDV) + Classic swine fever virus	100	1099,-Euro	conventional PCR
K735B	Classical swine fever virus (CSFV) DOUBLE CHECK + Pestivirus (CSFV, BVDV, BDV) + Classic swine fever virus + 2 genesequencing	100	1199,-Euro	conventional PCR
K061	Coxsackie virus (Enterovirus Kit K748A) (incl. 5 genesequencings)	100	799,- Euro	conventional PCR
K101A	Dengue Fever	100	599,- Euro	conventional PCR
K101B	Dengue Fever (1-4)	100	999,- Euro	conventional PCR
K101C	Dengue Fever (1-4) (incl. 15 genesequencings)	100	1999,- Euro	conventional PCR
K347	Detection of 15 H Subtypes of avian influenza viruses (H1, H2, H3, H4, H5, H6, H7, H8, H9, H10, H11, H12, H13, H14, H15)	100	1299,- Euro	conventional PCR
K348	Detection of 9 N subtypes of avian influenza virus (N1 to N9)	100	999,- Euro	conventional PCR
K349	Detection of 15 H subtypes and 9 N subtypes of avian influenza virus	100	ask	conventional PCR
K350	Detection of equine influenza virus (H3N8)	100	599,- Euro	conventional PCR
K351	Detection of equine influenza virus (H7)	100	599,- Euro	conventional PCR
K748A	Enterovirus	100	499,-Euro	conventional PCR
K748B	Enterovirus (incl. 15 genesequencings)	100	999,-Euro	conventional PCR
K803	Feline Calicivirus (FCV)	100	499,-Euro	conventional PCR
K200	FIP (Feline infectious peritonitis virus)	100	499,- Euro	conventional PCR
K729	Foot-and-mouth-disease (FMD)	100	599,- Euro	conventional PCR
K149	Foot-and-mouth-disease (FMD) genotyping: sat, O, A, C	100	599,-Euro	conventional PCR
K223	Foot-and-mouth-disease (FMD) triple check	100	999,- Euro	conventional PCR
K225	Hanta virus	100	599,- Euro	conventional PCR
K037	Hepatitis-C-Virus (HCV) Single check + nested	100	599,- Euro	conventional PCR
K747A	Hepatitis-C-Virus (HCV) Double check	100	1299,- Euro	conventional PCR
K747B	Hepatitis-C-Virus (HCV) Double check + 15 genesequencings	100	1999,- Euro	conventional PCR
K757	Hepatitis-C-Virus (HCV) Genotyping	100	999,- Euro	conventional PCR
K357	HIV-1	100	499,- Euro	conventional PCR
K133	Human Picornavirus	100	499,- Euro	conventional PCR
K710	Human respiratory syncytial virus (RSV) - A & B	100	999,-Euro	conventional PCR
K113	Infectious Bronchitis virus (IBV)	100	699,- Euro	conventional PCR

Cat. No.	NAME OF PRODUCT	REACTIONS	PRICE*	KIND
K121	Infectious Bursal disease (IBDV) Gumboro disease	100	699,- Euro	conventional PCR
K712	Influenza Virus (H1N1): to differentiate between seasonal H1N1 and recently outbreak human H1N1 of swine origin	100	899,- Euro	conventional PCR
K736	H1N1 of swine origin of recent outbreak (single check) This kit is in position to detect the H1N1 of swine origin of recent outbreak in samples. One can see clear beautiful bands in the gel agarose. This assay detect only H1N1 strains and there should be no cross reactions with H3N2, H5N1; H5N3, H7N7 strains and other strains. This is not available in literature. This is Genekam's own development.	100	799,- Euro	conventional PCR
K746	H1N1 of swine origin circulating in swine (single check) This assay should be used to detect H1N1 of swine origin in the samples of animals like pigs. This assay cannot detect recently outbreak H1N1 strain (so called Novel H1N1 of swine origin).	100	799,- Euro	conventional PCR
K794	H1N1 of human origin (single check) This assay can detect H1N1 of human origin (also known as seasonal H1N1 or novel H1N1 of human origin) in the cell cultures, nasal or other samples. This does not detect the recently outbreak H1N1 virus.	100	799,- Euro	conventional PCR
K745	Fluhunter 3X: Ready to use PCR kit to detect and genotype three different kinds of H1N1 of swine origin, seasonal H1N1 or Novel virus of human origin and H1N1 virus of swine origin). This kit is for reference laboratories, which want to know exactly, what kind of viruses, they have isolated as they may need to type the viruses correctly. This is reason that this assay is called Fluhunter 3X. This assay can type 3 different H1N1 strains i.e. recently outbreak swineflu strain, seasonal strain and strain circulating in pigs. This can be also used on different kind of samples like cell culture, nasal swabs, nasopharyngeal swabs, tissue etc.	100	1499,- Euro	conventional PCR
K414	H1N1 of swine origin of recent outbreak (double check) This assay may be of help to type of the virus in the remote laboratories as this checks the virus twice in the samples. A remote laboratory will be in position to reconfirm the results, rather creating confusing through the wrong results in the public.	100	1199,- Euro	conventional PCR
K415	H1N1 of swine origin of recent outbreak (triple check) This assay can be of help to type of the virus 3 times from 3 different parts at district level or town laboratories and give reliable results.	100	1499,- Euro	conventional PCR
K416	H1N1 of human origin and reconfirming the N1 part of H1: This assay can be used to detect the H1N1 strain of recent outbreak swine flu virus and reconfirming the N1 part of this virus. This is two in one assay. This assay is Genekam's own development.	100	899,- Euro	conventional PCR
K203A	Influenza A virus (one step)	100	599,- Euro	conventional PCR
K203B	Influenza A virus (incl. 2 genesequencings)	100	699,- Euro	conventional PCR
K400	Influenza B virus	100	599,- Euro	conventional PCR
K335	Influenza H1N1 drug resistance test (Neuraminidase inhibitor / Oseltamivir)	100	999,-Euro	conventional PCR
K303	Influenza H7	100	599,- Euro	conventional PCR
K102	Japanese Encephalitis Virus (JEV)	100	799,- Euro	conventional PCR
K804	Measles virus (MV)	100	599,- Euro	conventional PCR
K734A	Mosquito borne flaviviruses (Universal solution)	100	899,-Euro	conventional PCR
K734B	Mosquito borne flaviviruses (Universal solution) +10 genesequencings	100	1299,-Euro	conventional PCR
K734C	Mosquito borne flaviviruses (Universal solution) +30 genesequencings	100	1999,-Euro	conventional PCR
K734D	Mosquito borne flaviviruses (Universal solution) +70 genesequencings	100	2899,-Euro	conventional PCR
K230	Fluhunter: Genotyping of Influenza Viruses H3, H4, H8, H9, H12, H14	100	799,- Euro	conventional PCR
K231	Fluhunter: Genotyping of Influenza Viruses H1, H2, H5, H6, H12	100	799,- Euro	conventional PCR
K232	Fluhunter: Genotyping of Influenza Viruses H7, H10, H15	100	799,- Euro	conventional PCR
K233	Fluhunter: Genotyping of Influenza Viruses H9, H11, H13, H16	100	799,- Euro	conventional PCR
K234	Fluhunter: Genotyping of all Influenza Viruses H1, H2, H3, H4, H5, H6, H7, H8, H9, H10, H11, H12, H13, H14, H15, H16	100	1499,- Euro	conventional PCR
K755	Mumps	100	999,-Euro	conventional PCR
K049	Newcastle Disease (NDV) poultry	100	699,- Euro	conventional PCR
K229	Pestes des petit ruminants (PPR)	100	799,- Euro	conventional PCR
K062A	Parainfluenza virus 1	100	599,- Euro	conventional PCR
K062B	Parainfluenza virus 2	100	599,- Euro	conventional PCR
K062C	Parainfluenza virus 3	100	599,- Euro	conventional PCR
K062	Parainfluenza virus 1,2,3	100	1199,- Euro	conventional PCR
K039	Polio Virus (human)	100	499,- Euro	conventional PCR
K042	PRRSV (porcine reproductive and respiratory syndrome virus)	100	599,- Euro	conventional PCR
K077A	Rabies Virus	100	799,- Euro	conventional PCR
K077B	Rabies Virus (incl. 5 genesequencings)	100	899,- Euro	conventional PCR
K060	Rotavirus	100	599,- Euro	conventional PCR
K838	Rubella Virus (human)	100	699,- Euro	conventional PCR
K249	Sandfly fever sicilian virus without positive control	100	799,- Euro	conventional PCR
K034	Tick-borne encephalitis (TBE) (human)	100	899,- Euro	conventional PCR
K334A	Universal Fluhunter 1: Universal PCR kit for Matrix gene (M-gene) decoding and detection of all Influenza viruses + genesequencing chemicals included	100	799,- Euro	conventional PCR
K334B	Universal Fluhunter 1: Universal PCR kit for Matrix gene (M-gene) of all Influenza viruses + 10 genesequencings	100	1199,- Euro	conventional PCR
K336	Universal Fluhunter 2: Universal PCR kit for Hemagglutinin gene (HA-gene) decoding and detection of influenza viruses + 10 genesequencings	100	1199,- Euro	conventional PCR
K344	Viral hemorrhagic septicemia virus (VHSV)	100	699,- Euro	conventional PCR
K410A	West Nile Virus (WNV)	100	799,-Euro	conventional PCR
K410B	West Nile Virus (WNV) (incl. 2 genesequencings)	100	899,-Euro	conventional PCR
K412	Yellow fever (YF)	100	699,- Euro	conventional PCR
K412B	Yellow Fever (YF) (incl. 10 genesequencings)	100	999,- Euro	conventional PCR
K412C	Yellow Fever (YF) (incl. 30 genesequencings)	100	1599,- Euro	conventional PCR
K267	Arthropod-Borne Universal Flavivirus kit (It detects Dengue virus, West nile virus, JEV, TEBV, Yellow fever, St. Luis Encephalitis Virus and other flaviviruses of athropod like Mosquitoes and ticks origin)	100	799,- Euro	conventional PCR
K354	Fluhunter -Corona (Universal Kit) with 5 genesequencings	100	599,- Euro	conventional PCR
K355	Fluhunter -Corona (Universal Kit) with 25 genesequencings	100	799,- Euro	conventional PCR
K356	Fluhunter-Corona Plus (Universal kit) with 5 genesequencings	100	699,- Euro	conventional PCR
K358	Fluhunter-Corona Plus (Universal kit) with 50 genesequencings	100	999,- Euro	conventional PCR
K359	Fluhunter-Corona Extra (Unviarsal kit) + 20 genesequencing solution	100	1299,- Euro	conventional PCR
K360	Fluhunter ME SARS virus (Single Check);Ready to use PCR Kit to detect the middle east SARS virus	100	499,- Euro	conventional PCR
K361	Fluhunter ME SARS virus (Double Check);Ready to use PCR Kit to detect the middle east SARS virus	100	799,- Euro	conventional PCR
K313	Fluhunter: Ready to use PCR kit for H3N2 (Iowa strain)	100	ask	conventional PCR

RNA - VIRUSES WITHOUT POSITIVE CONTROL

Cat. No.	NAME OF PRODUCT	REACTIONS	PRICE*	KIND
K723	Crimean-Congo haemorrhagic virus (without positive control + free genesequencing)	100	ask	conventional PCR
K728	Ebola or Marburg virus (without positive control + free genesequencing)	100	ask	conventional PCR
K722	Lassa virus (without positive control + free genesequencing)	100	ask	conventional PCR
K724	Rift Valley fever (without positive control + free genesequencing)	100	ask	conventional PCR
K730	Rinderpest (without positive control + free genesequencing)	100	ask	conventional PCR
K721	SARS (without positive control + free genesequencing)	100	ask	conventional PCR
K300	Schmallenberg virus triple check (without positive control + free genesequencing)	60	699,- Euro	conventional PCR
K301	Schmallenberg virus triple check (without positive control + free genesequencing)	120	999,- Euro	conventional PCR

BIODEFENCE DETECTION PRODUCTS

Cat. No.	NAME OF PRODUCT	REACTIONS	PRICE*	KIND

GENEKAM STEM CELL PRODUCTS

Conventional PCR-Kits (gel agarose)

Cat. No.	NAME OF PRODUCT	REACTIONS	PRICE*	KIND
K272	Genekam RT Master mix (cDNA Synthesis Kit for Mammal cells) (This kit converts RNA in cDNA, which can be used for further analysis)	100	299.- Euro	
K235	Human stem cell pluripotent markers (incl. internal control) Multiplex (Oct-4, Sox-2, Rex1, NANOG)	100	499.- Euro	
K236	Human stem cell pluripotent markers (incl. internal control) Multiplex and singlex, Double Check (Oct-4, Sox-2, Rex1, NANOG)	100	799.- Euro	
K237	Human stem cell ectoderm lineage markers (incl. internal control) Multiplex (Neurofilament, Sox-2, Nestin, β -III tubulin)	100	499.- Euro	
K238	Human stem cell ectoderm lineage markers (incl. internal control) Multiplex (Neurofilament, Sox-2, Nestin, β -III tubulin)	100	799.- Euro	
K239	Human stem cell mesoderm lineage markers (incl. internal control) Multiplex (Cardiac actin, MEF-2, GATA2, hTERT)	100	499.- Euro	
K240	Human stem cell mesoderm lineage markers (incl. internal control) Multiplex and singlex, Double Check (Cardiac actin, MEF-2, GATA2, hTERT)	100	799.- Euro	
K241	Human stem cell endoderm lineage markers (incl. internal control) Multiplex (AFP, Oct-4, BMP-4, HNF 3- β)	100	499.- Euro	

Cat. No.	NAME OF PRODUCT	REACTIONS	PRICE*	KIND
K242	Human stem cell endoderm lineage markers (incl. internal control) Multiplex and singlex, Double Check (AFP, Oct-4, BMP-4, HNF 3-B)	100	799,- Euro	
K273	Multiplex human molecular markers for skeletal Myogenic differentiation: MyoD, Myogenin, Myosin and internal control	100	799,- Euro	
K274	Human Molecular marker for skeletal myogenic differentiation (single check): Myogenin	100	259,- Euro	
K275	Human Molecular marker for skeletal myogenic differentiation (single check): Myosin	100	259,- Euro

GENEKAM STEM CELL PRODUCTS

Common Media

Cat. No.	NAME OF PRODUCT	AMOUNT	PRICE*	KIND
STEM01	Genekam Freezing media for stem cells	30ml	20,- Euro	
STEM02	Genekam Isolation and culturing kit for cells containing stem cells from umbilical blood (It contains all components: isolation media, washing media, culturing media, staining)	10 units	ask	
STEM03	Genekam Isolation and freezing kit of cells containing stem cells from umbilical blood (It contains all components: isolation media, washing media, culturing media, staining, freezing)	10 units	ask	
STEM04	Nomore Mycoplasma kit: it has two parts: PCR detection of Mycoplasma in cell cultures as well as elimination of Mycoplasma	25 reactions	129,- Euro	
STEM11	Genekam Quick MNC Isolator (sterile)	25 ml	30,- Euro	
STEM12	Genekam Quick MNC Isolator (sterile)	100 ml	80,- Euro	
STEM13	Genekam Stem cell Isolator (sterile)	100 ml	90,- Euro	
STEM14	Genekam Stem cell Isolator (sterile)	250 ml	150,- Euro	

GENEKAM STEM CELL PRODUCTS

Differentiation Media

Cat. No.	NAME OF PRODUCT	AMOUNT	PRICE*	KIND
STEM05	Osteogenic differentiation media (10x)	10 ml	100,- Euro	
STEM06	Adipogenic differentiation media (10x)	10 ml	100,- Euro	
STEM07	Neural differentiation media (10x)	10 ml	150,- Euro	
STEM08	Sketel Moygenic differentiation media (10x)	10 ml	100,- Euro	
STEM09	Hepatic differentiation media (10x)	10 ml	100,- Euro	
STEM10	Chondrogenic differentiation media (10x)	10 ml	100,- Euro	

GENEKAM 3D-STEM CELL PRODUCTS

Cat. No.	NAME OF PRODUCT	AMOUNT	PRICE*	KIND
STEM15	3D-Genekam-bullets containing MSC	5	199,- Euro	
STEM16	3D-Genekam-bullets containing MSC	10	299,- Euro	
STEM17	3D-Genekam-bullets containing cell line	5	99,- Euro	
STEM18	3D-Genekam-bullets containing cell line	10	199,- Euro	
STEM19	Staining solution for 3D--Genekam-Bullet	1 ml	10,- Euro	
STEM20	G-Bullet lyser for 3D--Genekam-Bullet	10 ml	40,- Euro	

Conditions and terms of the Genekam Biotechnology AG:

Prices are ex factory, shipping charges and sales tax are extra. Our business terms apply.

Specifications can change without prior notice.

Official written orders will be accepted.

Please inquire for delivery times.
